IMPROVE CARE AT END OF LIFE

GOALS OF CARE DISCUSSION AT DIAGNOSIS
FOCUS ON WHAT MATTERS MOST TO PATIENT

REIMBURSEMENT BY INSURANCE

TRAINING ON HOW TO HAVE A GOALS OF CARE DISCUSSION

EVALUATION

VISION: Discussing a cancer patient’s goals of care soon after diagnosis — where the provider clearly explains what is happening and the patient shares what matters most to him or her — provides both provider and patient with a foundation of communication, trust, and information sharing that can improve overall cancer care.
