

Donor Privacy and Confidentiality Policy

Fred Hutch respects the privacy of its donors and prospective donors and believes that it is of paramount importance to maintain the trust and confidence of the Hutch community, including donors, prospective donors, sponsors, partners and volunteers. The Philanthropy Department at Fred Hutch developed this Donor Privacy and Confidentiality Policy ("Policy") to provide transparency as to Fred Hutch's practices, policies and procedures for the collection, use and protection of information that is provided to Fred Hutch by donors and prospective donors ("Donor-Related Information").

Confidentiality of Donor Records

Protecting the confidentiality of Donor-Related Information is an essential part of the work done within Philanthropy at Fred Hutch. All Donor-Related Information that is obtained by Fred Hutch is handled by Philanthropic Staff on a confidential basis except as otherwise disclosed in this Policy or except as disclosed when the information is provided to Fred Hutch. All Philanthropic Staff sign a confidentiality pledge and are expected to demonstrate professionalism, good judgment and care to avoid unauthorized or inadvertent disclosures of Donor-Related Information. Philanthropic Staff may share with donors, fund beneficiaries, and grantees information pertaining to their own gifts, funds and grants.

How We Protect Donor Information

Except as described in this Policy or at the time the information is provided, we do not otherwise disclose Donor-Related Information to any third parties, and we never sell, rent, lease or exchange personal information with other organizations. The identity of all who connect with us through our website, postal mail and email is kept confidential. The use of Donor-Related Information is limited to internal purposes, by authorized individuals, and to advance resource development efforts that require donor information, as noted above.

We have established and implemented reasonable and appropriate physical, technical and administrative safeguards to help prevent unauthorized access, maintain data security and ensure the proper use of Donor-Related Information. In particular, Fred Hutch secures the personally identifiable information provided on computer servers in a controlled, secure environment, protected from unauthorized access, use or disclosure. When payment information (such as a credit card number) is transmitted to other Web sites, it is protected through the use of encryption, such as the Secure Socket Layer (SSL) protocol. Moreover, credit card numbers are not retained by Fred Hutch once processed.

Although we have implemented reasonable and appropriate measures to safeguard against unauthorized disclosures of Donor-Related Information, our security measures may not prevent all losses and we cannot ensure that Donor-Related Information will never be disclosed in a manner that is inconsistent with this Policy. In the event security failures or disclosures contravene federal or state laws, Fred Hutch will follow all applicable federal and state notification requirements to make you aware of what happened. Fred Hutch is not responsible for any damages or liabilities.

Adult Oncology Giving

Fred Hutch now serves as the cancer program for UW Medicine. Fred Hutch is also leading a combined philanthropic program in adult oncology for both Fred Hutch and UW Medicine. Philanthropic funding accelerates our research, education, and patient care.

Fred Hutchinson Cancer Center is responsible for fundraising that supports all programs and activities for adult cancer research, clinical care, cancer education, and training at the clinically integrated parts of Fred Hutchinson Cancer Center and UW Medicine. As a result of this relationship, when giving a gift to adult oncology, your information may be shared with UW Medicine to facilitate coordinated efforts.

Fred Hutch creates opportunities for adult oncology supporters to receive additional donor recognition, stewardship, and applicable benefits from UW Medicine for your support. Transaction information about gifts made to Fred Hutch specifically for adult oncology after April 1, 2022 — as well as those made to support adult oncology programs in the future — will be shared with the University of Washington. Protecting your information is our priority. The securely shared information will include donors' name, contact information, gift amount, designated fund, and tribute information for gifts made to support cancer research and care.

Publication of Donor Names

Unless otherwise requested by the donor, the names of all individual donors may be printed in Fred Hutch reports and other internal and external communications. Fred Hutch will not publish the exact amounts of a donor's gift without the permission of the donor.

Memorial/Tribute Gifts

The names of donors of memorial or tribute gifts may be released to the honoree, next of kin, appropriate member of the immediate family or executor of estate unless otherwise specified by the donor. Gift amounts are not released without the consent of the donor.

Anonymous Gifts

When a donor requests that a gift or fund be treated as anonymous, the donor's wishes will be honored.
