## 2026 Program for Advancing Career Exploration

The Fred Hutch Program for Advancing Career Exploration (PACE) is a 5-week program designed for students from 2-year and 4-year colleges who are interested in pursuing careers in the biomedical sciences. This program introduces students to a wide array of roles in the biomedical sciences that do not require an MD or PhD and welcome a diverse array of skills and interests. As part of the program, students will attend Fred Hutch one day per week for 5 weeks, exploring careers in possible areas ranging from Flow Cytometry and Proteomics to Clinical Research Support. Students will meet professionals to learn about their roles and career paths and work through real-life scientific case studies. In addition, students will gain professional skills, such as building a strong resume and networking, that will prepare them to apply for positions.

### Program Schedule

July 8th 2026 to August 5th 2026, Wednesdays from 9:30 am to 1:30 pm at Fred Hutchinson Cancer Center – Preference will be given to applicants who are able to attend all program days.

### Application Instructions

It is not possible for you to save your progress in the application portal. We recommend that you review the [application](#) and prepare your responses in advance before and then later copy them into the application portal when ready to submit.

**Application due: 11:59 pm on April 6th, 2026**

**Letters of recommendation due: 11:59pm on April 20th, 2026** - We recommend you review the [website](#) for Letter of Recommendation tips.

**Applicants will be notified by:** Late-May 2026
