Researchers want to learn how the COVID-19 pandemic has impacted cancer care and treatment.

Good candidates for this research study:

- Are 18 years or older
- Received a cancer diagnosis March 1, 2020 or later
- Have access to computer, email, webcam or phone
- Self-identify as African American/Black
- Can speak/read/write in English
- Will attend a 90-105 minute Focus Group online
- Will review material before the Focus Group and answer a survey after the Focus Group

If you are eligible and agree to join the study, you will receive a $250 via gift card after the focus group.

Interested? Please contact Angela Silva at 253-403-7292 or asilva@multicare.org for more information.

The “Cancer Care in the COVID-19 Pandemic: Patient and Provider Experience” research study is sponsored by the Andy Hill Care Fund and supported by a partnership between Fred Hutchinson Cancer Research Center and MultiCare Health System.
