Occasional woodworking (sawdust)	No	Ok

Key:

- (1)** No swimming if venous access device still in place (i.e., catheter) or patient history of sinusitis. Swim in chlorinated and well-maintained pools. Uncertain water conditions of lakes, rivers and the ocean for swimming are Ok if water is tested routinely for safety by local state and health departments; avoid small bodies of standing water (lakes and ponds). Swimming in pools used by non-toilet trained babies and children not recommended. Water aerobics Ok.
- (2)** Shooting rifles/shotguns & golfing is not recommended if venous access device still in place (such as a catheter).
- (3)** Recommend caution and an understanding of the risk involved when participating in public events or going to locations with large crowds.
- (4)** Real Christmas trees: in the water reservoir of the tree stand, use water solution of 1 part chlorine solution (Chlorox®) in 10 parts water.
- (5)** Wash hands thoroughly with soap and water after kneading dough.
- (6)** Avoid all public hot tubs
