Big Data Collaboration:
Methods, Technology Development & Data Sharing

Fred Hutch - Pelton Auditorium

Join us to hear examples of cross-institutional collaborations involving big data and for a panel discussion to explore how we can enable more innovative projects. A poster session will follow highlighting more great research - with a prize for best poster (Fred Hutch swag and a team celebration).

Lydia Ng, PhD
Senior Director Technology
Allen Institute for Brain Science

William Stafford Noble, PhD
Professor Genome Sciences
University of Washington

Michael Zager
Director Center for Data Visualization
Fred Hutch
